Current BSIT 4th-year student with a willingness to learn and grow in the IT field. Equipped with foundational technical knowledge, a positive attitude, and a strong commitment to continuous improvement and teamwork.

PROJECTS

Web-Based Point of Sale (POS) System

Academic & Practical Development Project

- Engineered a custom retail POS and inventory management system with role-based access control (Admin & Cashier).
- Designed a responsive, minimalist UI with secure PHP user authentication and real-time live sales database views.
- Integrated comprehensive line-item transaction tracking and automated inventory alerts using Excel and SQL data queries.
